

Braves Bucks Scrip...Together We Can...

During the first month of our Braves Bucks scrip program, we had 6 families who ordered gift cards totaling \$2,175. The PFC earned \$123 from these orders. This is an average of approximately \$20 per family.

Note that these earnings are based on orders during only one month from 6 families.

What if this were 20 families? $20 \times \$20 = \400

Now multiply that by 12 months: $\$400 \times 12 = \underline{\$4,800}$

There are currently 88 families who have children enrolled in our school.
What could we accomplish if even half our families participated in this program?

$44 \times \$20 = \880 $\$880 \times 12 = \underline{\$10,560}$ ←*Now that's exciting!*

We have the potential to earn a significant amount from this program. All we have to do is use it. The greater the participation, the more money we generate for our PFC organization and, in turn, the school and our kids.

Please take a moment to think about how you can use scrip for your expenses. Help make our Braves Bucks program a success!

“Alone we can do so little; together we can do so much”.....Helen Keller
